EMPLOYEE SPOTLIGHT

Kristen Noel, Laboratory Technician at the Wastewater Treatment Plant, was recently elected 2013 President of the NH Water Pollution Control Association. In her acceptance speech, Kristen stated, “As your President for 2013, I am challenging each and every member of the NHWPCA to reach out in each of your communities. To educate as many people as you can about this vital infrastructure and the challenges facing this industry. As the saying goes, the squeaky wheel gets the grease, so we all need to squeak. Let us all get involved to give our profession a voice that says loudly and proudly that water matters.” Congratulations Kristen!
