GENERAL TERMS AND CONDITIONS

PREPARATION OF BIDS:

Bids shall be submitted on the forms provided and must be signed by the Bidder or his authorized representative. The person signing the bid shall initial any corrections to entries made on the bid forms.

Bidders must quote on all items appearing on the bid forms unless specific directions in the advertisement, on the bid form or in the special provisions allowed for partial bids. Failure to quote on all items may disqualify the bid. When bids on all items are not required, bidders shall insert the words “no bid” where appropriate.

Alternative bids will be considered, unless otherwise stated, only if the alternate is: (1) Described completely, including, but not limited to, sample(s), if requested, and specifications sufficient so that a comparison to the request can be made; and (2) Submitted as part of the base bid response, i.e. it shall not be a separate document which could be construed as a second bid.

Unless otherwise stated in the Request, the bidder agrees that the bid shall be deemed open for acceptance for **sixty (60) calendar days** subsequent to submittal to the City of Concord.

Any questions or inquiries must be submitted in writing, and must be received by the Purchasing Department no later than **seven (7) calendar days** before the Request for Bids due date to be considered. Any changes to the Request for Bids will be provided to all bidders of record.

The bidder shall not divulge, discuss or compare his bid with other bidders and shall not collude with any other bidder or parties to a bid whatever. (Note: No premiums, rebates or gratuities permitted either with, prior to, or after any delivery of materials is allowed. Any such violation will result in the cancellation and/or return of materials, as applicable, and the removal from Bid List).

The name of manufacturer, trade name, or catalog number mentioned in this request for bids description is for the purpose of designating a minimum standard of quality and type. Such references are not intended to be restrictive, although specified color, type of material and specified measurements may be mandatory. Proposals will be considered for any brand, which meets or exceeds the quality of the specifications listed. On all such proposals, the bidder shall specify the product they are proposing and shall supply sufficient data to enable a comparison to be made with the particular brand or manufacturer specified. Failure to submit the above may be sufficient grounds for rejection of the proposal.

When samples are required, they must be submitted free of cost and will be returned unless otherwise specified.

Items left for demonstration purposes shall be delivered and installed free of charge and shall be removed by the vendor at no cost to the City. Said demonstration units shall not be offered to the City as new equipment unless mutually agreed to.

BIDDERS INTERESTED IN MORE THAN ONE BID:

If more than one bid is offered by any one party, or by any person or persons representing a party, all such bids shall be rejected. A party who has quoted prices to a bidder is not thereby disqualified from quoting prices to other bidders or from submitting a direct bid in its own behalf.

FAILURE TO EXECUTE AGREEMENT:

Failure of the successful bidder to execute the agreement and/or furnish acceptable surety bonds within ten (10) calendar days from the date mailed or otherwise delivered to the successful bidder shall be just cause for cancellation of the award and forfeiture of the bid bond, not as a penalty, but as liquidation of damages to the City.

**TIMBER SALE CONTRACT
B06-08**

This agreement is entered into on this _____ day of _____, 2007 between the **City of Concord, New Hampshire**, hereinafter called the Seller, and _____, hereinafter called the Purchaser.

TIMBER INCLUDED AND PRICE

The Seller agrees to sell to the Purchaser and the Purchaser agrees to buy from the Seller, upon the terms and conditions hereinafter stated, all designated timber located on the **Penacook Lake City Forest - Treatment Plant Compartment** belonging to the Seller off of **Lake Street in Concord, New Hampshire**.

The Seller as signatory to this contract warrants that they are the owner of the timber to be cut and has complete authority to sell such timber and to enter into this contract for that purpose as described herein.

No timber shall be cut except that designated by the Seller or the Agent.

All designated trees are to be cut and harvested and all merchantable products shall be used in their entirety. The bole shall be utilized for sawlogs as quality permits down to at least a 10" D.I.B. and down to 6"D.I.B. for pulp. Portions of the tree not used for sawlog or pulp shall be chipped.

Prices for products/species not listed above will be negotiated between the Purchaser and the Agent for the Seller if and when they are produced.

SCALING

The standard 128 cu.ft. cord or its weight equivalent shall be the basis for the measure of pulpwood or firewood. The weight equivalent for the purpose of this contract shall be 5,200 lbs. for hardwoods and 4,300 lbs. for softwood.

When firewood is sold by the truckload by the Purchaser under this agreement, said truckload shall be deemed to contain five(5) cords if a tandem axle, and seven(7) if a tri-axle truck and the Seller shall be paid accordingly at a negotiated rate.

The Purchaser agrees to permit the Seller or the Agent to periodically review the scaling and grading along with the scale and grade recording process as the Seller desires and to perform such checks and audits thereof commensurate with recognized and established practices.

In case of disagreement as to **scale or grade**, the decision of the Agent shall be final. Scale slips showing individual log volumes for each truckload for all products must be dated and submitted weekly. The Agent reserves the right to stop logging operations if proper scale slips are unnecessarily delayed.

If the Purchaser sells logs to a consumer using some other log rule, the decision of the Agent shall be final in determination of comparability of other rules with the International 1/4" Kerf Scale Rule.

METHOD OF PAYMENT

The Purchaser agrees to pay the Seller on a weekly basis or his normal payment schedule for all materials removed during that period and to furnish the Agent each week with a statement of actual scaled volumes removed and associated payment calculations.

All checks and other monies whether for performance bonds or stumpage payments will be made out to the order of "**City of Concord**", and mailed to FORECO, PO Box 161, Contoocook NH 03229.

AGENT AND FORESTER

FORECO:Forest Resource Consultants, PO Box 93, Rumney NH 03266, shall be the Agent for the Seller for this timber sale and contract.

PERFORMANCE BOND

A performance bond in the amount of \$6,000.00 shall be tendered by the Purchaser to the Seller and will be returned to the Purchaser upon successful completion of this agreement. This bond shall not be deducted from the last stumpage payment made by the Purchaser to the Seller.

PAYMENT BOND

A payment bond in the amount of \$2,000.00 shall be tendered by the Purchaser to the Seller and will be returned to the Purchaser upon successful completion of this agreement. This bond shall not be deducted from the last stumpage payment made by the Purchaser to the Seller.

TIMBER TAX BOND

A timber tax bond may be required by the Seller prior to the start of the harvest and shall be applied to the timber tax upon the filing of the "Report of Wood Cut" form. Any overpayment shall be refunded and an underpayment will be billed. The harvest is not considered complete until the Timber Tax is paid in full.

TITLE

All timber products removed from the property of the Seller under this agreement shall remain the property of the Seller, until paid in full.

All rights granted under this agreement revert to the Seller under this agreement, whether such termination results from the full performance of said agreement, or is so declared by the Seller on account of breach on the part of the Purchaser.

PERIOD OF CONTRACT

All timber purchased under this agreement shall be cut and removed by **March 1, 2008** unless an extension of time is granted by the Seller or the Agent.

This contract shall terminate upon completion of the work or upon breach of this contract, however, all obligations created by this contract up to the time of the breach shall survive such termination.

Failure on the part of the Purchaser to comply with any of the conditions herein contained shall, at the option of the Seller in consultation with the Agent, be deemed a breach of this contract.

Should the Purchaser remove all trees which he has the right to remove prior to the termination date of this contract, all his rights to enter upon said premises shall terminate, and upon termination by limitation or otherwise, shall quit the premises in a peaceable manner. All equipment shall be removed from the site within 5 days of successful completion of this contract.

CUTTING

The Purchaser agrees to pay the Seller for trees designated to remain that were cut or injured through carelessness at the rate of 5 times the contract price for trees designated to be cut.

All trees severed from the stump and containing merchantable material shall be removed and paid for. Trees severed and not removed shall be paid for at the stated contract rates.

Main skid trails shall follow routes marked by the Agent and shall be cleared of tree growth more than 2" diameter before yarding begins. Smaller growth may be pushed over. All merchantable wood cut in the clearing of the skid trails shall be skidded to the yard as soon as the trail can be used.

All trees shall be sawed or cut down as near the ground as swell of roots or defects will permit, which may require the removal of snow from around the tree. All stumps not cut in accordance

herewith and which should have been so cut in the judgement of the Agent, shall be paid for at the rate of \$1.00 each. In general, stumps should be less than 12" high.

Marked trees believed to contain wire fencing can be cut at a height of no more than one foot above the suspected wire and the stump shall then be severed and can be left on site.

Logging slash, tops, branches, resulting from the harvest or the clearing of skid trails and access roads shall be lopped to within three (3) feet of the ground.

LOGGING

Trees, shrubs, and other areas as fenced off by flagging shall be avoided during felling, logging or hauling activities.

All buttons, bark, chips and waste wood will be removed from the log yard upon completion of the harvesting activity by pushing it aside to the area designated by the Agent and the yard is to be left smooth.

Reasonable care will be taken to assure that pallet logs, pulpwood and chips are produced only when the tree length material being processed is of too poor of quality to be considered grade sawlogs. The Agent will discuss a solution to this problem with the Purchaser when and if the problem arises.

Logs or tree length wood will not be skidded across water courses and drainages unless pole crossings, bridges or culverts are built to prevent the silting of the water course. Such temporary culverts and crossings will be removed as soon as the skidding is completed in the area served by the trail unless otherwise agreed upon by the Seller. Such crossings are subject to the State of New Hampshire wetland regulations.

The Purchaser shall place water bars and rocks on the skid trails as directed by the Agent upon completion of the harvest operation.

The Purchaser agrees to cease harvesting operations at the option of the Seller or the Agent should ground conditions deteriorate either throughout the lot, on the skid trails, or on the access roads.

The Purchaser agrees to assume all liability for, and to repair damage caused by logging to ditches, fences, power lines, or other improvements on or adjacent to the woodlot that are damaged during the harvest operation.

Trees damaged, root sprung, or hung up during the harvest whether merchantable or unmerchantable, shall be felled upon the request of the Agent and utilized.

Felling and yarding of trees and other work pertaining to this operation shall be confined to the sale area and shall be done to preserve the remaining growth from waste or damage.

The Seller or the Agent reserve the right to restrict the size and type of skidding equipment and the manner in which the lot is operated if it determined that unreasonable damage is caused by

either. This includes the right to limit the length of saw timber or require that tops and sawlogs be skidded out separately.

The Purchaser shall not change oil or conduct major maintenance or repairs of equipment on the property. Equipment with chronic fluid leaks will not be allowed on the site.

The Purchaser agrees to have a typical logger's "Haz-mat" kit available at all times on every active log yard and shall use the supplies within the kit to help clean up any hazardous compounds resulting from the harvest.

Any hazardous spill or leak shall be immediately reported to the personnel at the Water Treatment Plant.

HAULING

Location of the log landing or yard shall be approved by the Agent for the Seller before construction or use.

If the water level in the lake permits, one designated culvert shall be extended at least four feet.

Existing trails shall be left in a condition equal to or better than their condition prior to the start of the operation.

The gate on Lake Street shall be kept closed at all times and locked at the end of the day.

STATUTORY REQUIREMENTS

A copy of all permits, contracts, and certificates, obtained or entered into by parties to this contract shall be provided in a timely manner to the Agent for the Seller.

The Purchaser agrees to comply with all Federal and State laws or regulations in the performance of this operation. The Purchaser agrees to indemnify and hold harmless the Seller from any and all claims or demands which may be made against it by reason of the Purchaser's operation or violation by the Purchaser of any laws or regulations governing said operations.

The Purchaser assumes all liability for damages and suppression expenses if a forest fire occurs as a direct result of the harvesting operation or because of carelessness of those involved in the harvest.

The **Purchaser** agrees to assume responsibility for payment of the Timber Yield Tax as well as timely filing of Intent to Cut and Report of Wood Cut forms.

The Purchaser shall be responsible for compliance with RSA 227, regarding slash disposal in relation to property lines, public highways, public waters and streams. The Purchaser shall also be responsible for adhering to all wetland regulations.

AGREEMENT

The Purchaser will notify the Agent for the Seller five(5) days before starting to operate any portion of this sale. Should the operation cease for more than five(5) days during the period of this agreement, the Purchaser will notify the Agent or the Seller five days before returning to operate any portion of the sale. The Purchaser shall notify the Agent when he is five(5) days from completing the harvest operation. The Purchaser will indemnify and save harmless the Seller and his authorized Agent from any and all claims and actions concerning lost costs, expenses(including attorney and legal fees), and damages of every kind and description which may be brought or made against the Seller or his Agent on account of or in any manner arising out of the work being done under the agreement, sustained by any person, firm or Purchaser's Agent, employee(s), contractor(s), or subcontractor(s) and shall carry the minimum types and levels of insurance detailed by B06-08, conditioned to protect the Purchaser(s), or his Agent(s), employees(s), contractor(s), or subcontractor(s) from any loss, costs, damages or expenses in any way arising out of work done by the Purchaser or his Agent(s), employee(s),contractor(s), or subcontractor(s) hereunder.

The Purchaser shall be required to carry the minimum levels of insurance coverage detailed by B06-08. The Purchaser shall provide a certificate of insurance for this coverage and shall name the Seller and its Agent as additional insured.

The Purchaser agrees to observe all restrictions and provisions of this contract and to conform to the directions and instruction given by the Seller and the Agent. The Seller and the Agent reserve the right to stop the timber operation if the conditions of this contract are not being observed.

The Purchaser agrees not to assign this agreement in whole or in part without written consent of the Seller or the Agent.

All disagreements and disputes, if any, arising under the terms of this agreement, either by law, in equity or by arbitration, shall be resolved pursuant to the laws and procedures of the State of New Hampshire, in which state this agreement shall be deemed to have been executed. No action at law, or equity or by arbitration, shall be commenced to resolve any disagreements or disputes under the terms of this agreement, in any jurisdiction whatsoever other than the State of New Hampshire and Merrimack County.

In witness whereof the parties hereto set their hands on the day and year first above written.
