### ADDENDUM NUMBER ONE RFP33-09 PLAYGROUND EQUIPMENT

**TO ALL FIRMS OF RECORD:** This addendum forms a part of and modifies the proposal and contract documents and technical specifications for the project named above. The following additions, changes and clarifications are made to the original proposal documents:

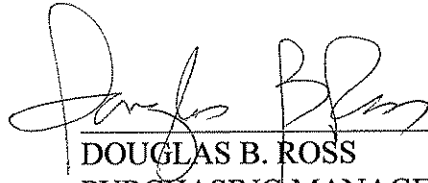

1. **Question:** We are in possession of the RFP for Garrison Park. After review, we noticed that there was not a drawing of the equipment included in the packet. Could you please supply the PLAN VIEW of the playground equipment for this project at your earliest convenience?

**Answer:** The City does not have a PLAN VIEW of the playground equipment requested. However, we do offer the following description:

“The Grounds Division of the General Services Department for the City of Concord, NH is looking for replacement playground equipment to include one single bay swing set, one play structure and a minimum of two independent accessible play events. The equipment shall be age appropriate for 5-12 year olds. The single bay swing set shall be eight feet in height, with belt seats and coated chain. The play structure shall include a climbing net, climb through element and a motion event. Other components may be added. The independent play pieces must be accessible. One of the independent play pieces must create movement and the other must develop upper body strength. The approximate layout size is 50’ x 60’. There is a 16” buried water main running through this area of the park (its location is marked). One independent play piece may be located in a separate adjacent area that is approximately 15’ x 20’ in size.”

PLEASE BE ADVISED THAT THE PROPOSER MUST ACKNOWLEDGE RECEIPT OF ADDENDUM ONE ON THE PROPOSAL SHEET SIGNATURE PAGE (PAGE 26 OF 32).
